

Summary of Talents-

- 7 ½ + years of Japanese language study.
 - Experience in translating for a colleague's business venture with a Japanese company's work.
 - Experience in translating works of literary fiction and video game works of fiction for friends and acquaintances.
 - Diligent and studious, especially in regards to language.
 - Respectful towards the idea of presenting the best possible product for customers and potential buyers.
 - The drive to use my set of skills and ambition to make the company that I work under the best that it can be and even more.
 - An excellent aptitude for critical thinking and practical application of critical thinking.
-

Languages- Japanese, English, Currently Learning Chinese

Work Aspirations- Translation (of literature, fiction, and documents), Interpretation, Teaching in the field of Language

Skills Acquired Through Work History-

- Knowledge of the multiple ways to run a business based on customer demand, the best allocation of resources available, and time management.
- Experience picked up from the accomplishment of the regular work load expected of me in a working environment as well as going above and beyond to better my respective company through completion of tasks that I took upon myself to improve.
- Communication skills appropriate for a business setting when speaking to customers, supervisors, and business partners to my company.
- Through my earnest work I have developed an appreciation for the act of putting my best effort and more towards the production of goods so that they may be all-around pleasing and above satisfactory to a community of buyers.

Skills Acquired Through Educational History-

- A deep love for the study of linguistics and language.
- The ability to never give up regardless of difficulty.
- The honor of being presented a challenge, and rather than fearing failure or complications, I relish and look forward with excitement to a new opportunity to improve myself and learn something new.
- The ability to set a goal, make rigorous steps towards it, and achieve said goal.
- The ability to understand when I need help and how to ask for it. Furthermore, through asking questions and paying heed to the advice of my colleagues and instructors I have gained the ability to better myself in a field and surpass the expectations of my peers as well as the expectations of myself.
- The extensive aid of my language teachers in Clemson University has given me an even deeper understanding of the Japanese language that I seek to utilize and further study with my career paths.
- Through education I have gained the conviction to declare that my current standing is the fruition of both my never-ending effort towards achieving success and overcoming failure, and it is because of the myriad instructors, role models, and peers that I have been so well honored to have learned from that I may continue to pursue further education both through academic studies, and through my career paths.

Employment Record-

Cookout (Worked at nights as a cook, food preparer, stocker, clerk, janitor, and dealt with managerial responsibilities) March 2017 – February 2018

- Through this job I learned the value of putting forth not only my effort towards a team project, but also learned how I could apply myself to better the experience of customers to my business through questioning how the best possible outcome of a product can be made with the greatest consideration towards the customers' desires.

Ingles Deli Worker (Worked at nights preparing foods, stocking inventory for the deli area, assisting customers, and keeping the store well kempt and looking good as new) March 2018 - April 2020

- Through my boss at this job, I learned the importance of respecting the values and concerns of my teammates, while also keeping an eye to being strict when the matter necessitates the betterment of employee workload or the betterment of customer satisfaction.

Plant Partners Merchandiser for Lowes (Organization and aiding of sales for items in the gardening center of Lowes (a home improvement store)) March 2021 – Present

- My time at this business has been short; however, I have already had the opportunity to learn skills for better organizing inventory as well as my time for work.
